

5 NEEDLES
AT WHITE PINE

Residence Finish Book
SCHWEITZER

W E L C O M E

Welcome to the 5 Needles Finish Book

5 Needles at White Pine is Schweitzer's first residential project since construction of the original White Pine Condos.

Named after the distinct 5 needle groupings used to identify a White Pine, we are proud to be offering this latest version of luxury mountain living in the heart of the Village at Schweitzer.

Drawer Hardware

WATER VAPOR ELECTRIC FIREPLACE

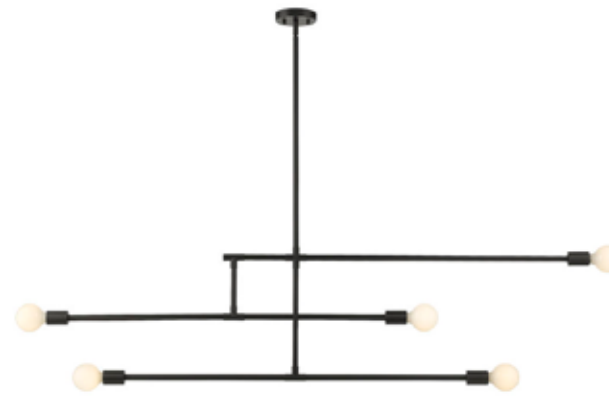

WATER VAPOR
ELECTRIC FIRE

We want residents to have a cozy warm fire to come home to on those chilly days at the ski hill, but wanted to be able to produce that same ambience with a more sustainable solution. A Faber electric fire provides the warm feel of fire and atmosphere but without emissions or burning anything. With flickering flames produced by a combination of cold water vapour and low-energy LED lights. Without combustion in the buildings, air quality is higher and occupants are healthier.

By going all electric, the building is able to be powered by Green Power, with potential to be net zero as the grid moves to renewable sources of energy and reduces the carbon footprint.
